

Consistent

Line Endings (Free)

By Nightfox

Version: 1.0

Consistent Line Endings automatically normalizes and converts line endings for you, so that you don't have to deal with Inconsistent Line Ending warnings ever again. Saves you some headaches and speeds up your cross-platform development.

Features:

- Normalizes line endings automatically
- Supports CR, LF, and CRLF line ending styles
- In-depth log details
- Safe file handling, any undesirable changes will be avoided
- Quick toggle via hotkeys
- Supports various file formats: .cs, .js, .boo, .txt, .shader, .compute, .xml, .json, .yaml, .csv, .html, .htm, .rtf, etc
- Cross-platform compatibility with Windows, Linux, and Mac OSX
